Topserw 196.960.364

Draining valve 3/4″ complete set

Draining valve for the connections of seasonally used drinking fountains and water fillers, allowing water to be drained from the installation to protect it in winter.

KEY FEATURES

- Made of ductile cast iron, supplied with housing and box
- Automatically drained when fully closed
- Internal thread fitted with a corrosion protection ring
- Not to be used when ground water is above the drainage outlet level
- Requires effective run off of water from the line when installed in the ground

SPECIFICATIONS

Product code	196.960.364
Size	3/4″
Material	Ductile cast iron
Telescopic housing length	1.3-1.8 m
